

SPECIALIST CHILDREN'S SERVICES

Hobbs Rehabilitation offers specialist physiotherapy along with occupational therapy and speech and language therapy. Our therapists treat children of all ages and have experience in managing conditions affecting the neurological and musculoskeletal systems. We are able to offer advanced skills in the Bobath concept.

Conditions we treat include:

- Acquired Brain Injury
- Altered walking pattern
- Arthritis
- Autism and sensory processing difficulties
- Cerebral Palsy
- Co-ordination difficulties and dyspraxia
- Degenerative neurological conditions
- Delayed gross motor development
- Muscular Dystrophy
- Neuro-developmental disorders
- Premature birth
- Selective Dorsal Rhizotomy – pre and post surgery
- Spinal injury
- Spinal Muscular Atrophy
- Sports injuries, muscular or joint pain
- Stroke
- Torticollis

Each child is assessed and given a bespoke treatment plan.

CHILDREN'S SERVICES INCLUDE:

- Advice on equipment provision
- Lycra garments
- Hand therapy and serial casting
- Assistive technology
- Advice and training on speech and swallowing difficulties
- Communication aids
- Aquatic therapy
- Core stability work
- Exercises
- Positioning
- Posture re-education
- Stretches including home management programme
- Treating clinician/tribunal reports for case managers and solicitors

We also have a self-contained flat available at Hobbs South West for intensive inpatient rehabilitation.

Treatments are given in a variety of settings including at home or at school across the south of England.

For details of your nearest centre please call us on 01962 779796 or email treatment@hobbsrehabilitation.co.uk.
