

Rehabilitation Assistant – Hobbs Winchester

Internal job reference number:

Start Date: ASAP

Contract: Permanent

Various full-time and part-time options available

Location: Hobbs Rehabilitation – Martyr Worthy, Nr Winchester plus community visits and local care homes

Pay: From £19,000 depending on experience

About Hobbs:

In 2005, neuro physiotherapists Helen Hobbs and Nicky Ellis set up Hobbs Rehabilitation and since then it has expanded rapidly offering an exceptional level of personalised skill and expertise in neurological rehabilitation. Now operating from 11 locations, Hobbs Rehabilitation provides specialist inpatient and outpatient neurological rehabilitation for adults and children across the south of England, treating a wide variety of conditions, including stroke, acquired brain injury and spinal cord injuries. An expert team of over 100 therapists, including OTs, PTs, SLTs and Psychologists, provide an interdisciplinary patient-centred neuro rehabilitation service. We are passionate about pursuing the latest advances in research and technology to support our clients. We encourage staff development through regular supervision, in service training and a yearly review.

The Role:

As a Rehabilitation Assistant, you will work under the guidance of the therapy team to provide high quality holistic care to our clients throughout their rehabilitation journey. There are currently various opportunities based in our outpatient centre near Winchester, including community working and the possibility of supporting our MDT service in local care homes, providing rehabilitation for people recently discharged from hospital.

You will receive thorough training to help you in your role, and will be involved in joint sessions, as well as offering individual sessions if appropriate. You will be part of the interdisciplinary therapy team, which will include working with Physiotherapists, Occupational Therapists, Speech and Language Therapists and Psychologists. Hobbs Rehabilitation is passionate about using exciting neurotechnology to enhance our clients' rehab and you will have the opportunity to develop skills in this area. This job description is an outline which reflects the present requirements of the post and is not intended to be an exhaustive list of duties

Duties and Responsibilities:

- To implement individual rehabilitation plans for your patients, under the guidance of qualified therapy staff, providing suitable feedback to members of the inter-disciplinary team
- To escalate issues as required following Hobbs guidance and operating procedures
- To be compliant with the clinical governance requirements operating within Hobbs procedures
- To be involved in clinical audits as and when directed
- Carrying out all procedures relating to the personal care and nutritional needs of patients dealing with emergencies as required
- To undertake duties and responsibilities as defined in the work plan
- To effectively communicate in a way that demonstrates the values and behaviours of Hobbs.
- To communicate with people clearly and in a manner and at a level and pace appropriate to their abilities, preferences, and beliefs
- To develop effective relationships with clients, carers, staff, suppliers, and others as from time to time may be required
- To always be respectful of a client's dignity and emotional state whilst carrying out designated tasks.

- to work at different sites if required

Skills & Experience

- Experience of working in customer-facing roles with members of the public
- Excellent written and verbal communication skills
- Enthusiastic team player
- Experience of working in health or social care is desirable but not essential
- Experience of working within a rehab setting within an MDT is desirable but not essential

The successful candidate must have a full clean driving license and be prepared to travel to training and community visits.

We offer:

- A supportive, friendly, and experienced clinical team who are passionate about rehabilitation.
- Development of clinical skills through 1:1 and group supervision, training, and networking opportunities across the company including support to access external training and CPD events.
- Development of CPD through an extensive programme of internal CPD activities, in-service training, and service development projects.
- A strong rehabilitation research culture within the company.
- Attending regular team meetings and becoming part of the experienced multi-disciplinary team with a range of varied specialisms.
- Annual appraisal with individualized and personal CPD objectives.
- Belonging to a dynamic, growing company with opportunities to attend Hobbs-wide meetings.
