

## **Part Time Occupational Therapist based at Oaksey House, Lambourn, Berkshire and Winchester**

### **Spinal Cord Injuries and Neurological Rehabilitation**

**Start Date:** October

**Contract:** Part Time permanent (20 hours ideally over 4 days)

**Pay:** Commensurate with skills and experience, Band 6 level

We are excited to be looking for an enthusiastic, highly skilled occupational therapist to join our established multidisciplinary teams based at Oaksey House, Lambourne, and our outpatient centre in Winchester. You will possess relevant rehabilitation experience for people with spinal cord injuries and brain injuries and enjoy working as part of a team.

The successful applicant will work as an integral part of the team to provide high quality intensive residential rehabilitation, community-based treatments and intensive out-patient therapy for patients with spinal cord injuries and neurological conditions.

#### **The Role**

The role of the Occupational Therapist will be to work with the Hobbs team to provide high quality rehabilitation care for patients with neurological conditions.

#### **Duties and Responsibilities**

- Professionally and legally accountable for all aspects of own work, including the management of patients in your care through the undertaking of comprehensive assessments of patients
- Formulate and implement individual treatment programmes based on comprehensive knowledge of evidence based practice and treatment options
- Provide occupational therapy intervention where there may be barriers to understanding and assess patient understanding of treatment proposals, supporting patients and families at Hobbs
- Evaluate patient progress, reassess and progress or alter patient treatment programmes within the specified timeframes compliant with Hobbs Rehabilitation care pathways.
- Organise and plan the OT caseload at Hobbs in conjunction with other physiotherapists, OTs and SALTs, to meet the service and patient's needs, readjusting plans as situations change or arise.

#### **Skills & Experience**

- Occupational Therapy degree qualification or equivalent
- Previous experience in neurological rehabilitation and musculoskeletal would be preferable
- HPCP registration

- Knowledge and understanding of treatment approaches and adjuncts to treatment in the management of patients requiring occupational therapy
- Documented evidence of Continuing Professional Development (CPD) including reflective practice

The successful candidate must have a full clean driving license and be prepared to travel to training and community visits.

**Apply on Indeed with an up to date CV**
