VOCATIONAL REHABILITATION

“The greatest
rehabilitation team
ever! Thank you Hobbs
for all your support in my
quest to return to work,
I’m loving it!”
V Patten

Hobbs Rehabilitation provides specialist interdisciplinary vocational rehabilitation.

Our team includes clinical psychology, neuropsychology, occupational therapy, physiotherapy, speech and language therapy and rehabilitation assistants.

Clinicians are experienced in treating neurological conditions such as acquired brain injury, spinal cord injury, stroke, progressive neurological conditions and polytrauma.

The potential to build an integrated team around the client ensures that the client’s needs and expectations related to vocational activities are met as effectively as possible resulting in sustainable outcomes.

We provide high quality rehabilitation in the client’s home as well as colleges, workplaces and in our inpatient and outpatient treatment centres across the south of England.
