Neurological Specialists

Placing you at the centre of your care

“It’s a wonderful resource to have on our doorstep. Anyone who has visited Hobbs will not only wonder at the dedication and expertise of its team, but also their ‘can-do’ attitude and positivity”

**Editor,
The Hampshire Chronicle**

Hobbs Rehabilitation provides an inter-disciplinary service run by experts in neurological physiotherapy, occupational therapy, speech and language therapy and orthotics, to help ensure that every individual can reach their full potential.

We treat all neurological conditions including Stroke, Acquired Brain Injuries, Multiple Sclerosis, Parkinson’s Disease and Spinal Cord Injuries.

The latest advances in neurotechnology such as the Ekso Bionics Exoskeleton, the Litegait and the AlterG Bionic Leg are available as useful adjuncts to your rehabilitation programme.
